

Picture PERFECT GOLF

SUGGESTED RETAIL PRICE: \$79.95
ADDITIONAL COURSES: \$34.95

Golf action so real you can almost smell the grass

Finally a computer golf game that takes you beyond the boundaries of your desktop. *Picture Perfect Golf* from LYRIQ is the first golf software that fully leverages both CD-ROM and virtual reality techniques to bring golfers the experience of playing some of the world's finest courses. While other products offer only "photorealistic" views or computer graphics, *Picture Perfect Golf* gives you thousands of real photographs of each course and puts you — not an animated figure — on the green. It's an experience that costs about \$25 an hour at indoor golf centers. *Picture Perfect Golf* brings the courses to your computer where you can play as often as you like.

The only golf game using virtual reality techniques and actual photography

Picture Perfect Golf features the same virtual reality techniques and the same high-quality photography used at indoor golf centers across the U.S. You'll play the actual course and experience the real scenery of each fairway and green. There are no frustrating screen redraws to hold up your game. You'll see the course from all angles including overhead views — even from behind the trees and across water after those shots you wish you hadn't made!

Picture Perfect Golf puts you — not an animated figure — on the green

This virtual golf experience is played from a first person perspective. You view each shot as you make it — watching as your shots travel down the fairway or across the green. Varying golf club trajectories and real golf shot rolls and bounces further enhance the experience. *Picture Perfect Golf* even supports infra-red golf club hardware so you can play with your own swing and results.

Additional courses available through your software dealer or LYRIQ

Our base course is beautiful Harbour Town Golf Links in Hilton Head, South Carolina. Available separately, to run from the base course game engine, is The Resort Golf Course at Coeur d'Alene, Idaho. Other add-on game components, each featuring one of the world's great courses, are planned for release every three months starting in early 1995.

Picture Perfect Golf Highlights

- ▶ Only golf game with virtual reality techniques, fully leveraging CD-ROM technology
- ▶ Thousands of actual photographs from the world's finest courses
- ▶ First person style play. You — rather than a computer icon — are "on" the course
- ▶ Varying golf club trajectories, real golf shot rolls and bounces
- ▶ Record and print out statistics for up to eight players in any game
- ▶ Course photos use full 256 color VGA and are supplemented with high quality graphics for the player control panel and overlaid views
- ▶ Digitized sound — from chirping birds to cheering crowds — enhance your experience
- ▶ A click on the control panel lets you take a mulligan, gimme or rehit
- ▶ Fine tune your shots with visits to the putting green and driving range
- ▶ Organize your strategy with overhead views of the course
- ▶ Easy pre-set ball address options for draw, fade, punch shots and more. Adjust them to fine tune your play
- ▶ 30-day money back satisfaction guarantee
- ▶ Free technical support from LYRIQ
